### What People Are Saying About West Coast Termite:

I called Brett at Westcoast Termite and could not have been more satisfied with his services. First, his attention to detail was more than I expected. Brett explained everything about what needed to be done to get rid of the termites and gave us a few options to choose from. He carefully inspected every area of my house to see exactly where the termites were. He also explained, in detail, how to prevent this problem from arising again. I wasn't even thinking about this. We didn't have to do a full fumigation. **He kept costs low and made sure the infestation wouldn't spread.** I will definitely use Brett and Westcoast Termite again.

- Mark H., Cypress, CA

Brett the owner came himself. Assessed the situation of the termite infestation promptly and "walked" me through it thoroughly and explained in detail how he would treat it and with what chemicals. Price is very reasonable. We agreed and Brett got to work and heaved and puffed his way through the attic. I think he was up there for a good few hours. From what I saw and heard, Brett seemed very honest, conscientious and professional. **Gave me a one year warranty on his work. Highly recommended!!**

- Paul L., Glendale, CA

### TOTAL TERMITE TREATMENT MEANS:

#### Inspection

We thoroughly inspect all areas of your home, attic, basement and crawl space. We physically inspect all rafter tails, fascia boards and exposed wood where termites might gain a foot hold.

#### Treatment

If signs of infestation are found, we recommend the best treatment method to deal with the problem. Not every home needs to be fumigated; many times a localized treatment will eliminate termites in the early stages of infestation.

#### Preventative Maintenance

Our annual preventative maintenance calls detect any signs of re-infestation, eliminating termites before they become a problem. This is the only sure way to protect your home against the ravages of termites.

#### The Better Solution To Your Termite Problem

We have a Commitment to Excellence and offer the Best in Customer Service. We are a family owned business that cares about your family and your home.
